

# What's new with GRITS?

## GRITS got a facelift.

So, what does that mean to you? Here's what you need to know...

- **Functionality has not changed** – The look and feel may be different, but the functions and operations of GRITS remain the same.

- **'Clients' are now known as 'Patients'** – To align our verbiage with the nurse staff that typically uses GRITS, we have changed the term client to patient all throughout the system.

- **Release Notes section**– Choose this

- **Home page made easier** – The Home screen has been revamped to put easy access to the functions most important to you (i.e. Manage Patient, inventory alerts, etc...)
- **The options to the left are now true headers** – Click on a header to see a drop down of further options.
- **This is only the beginning** – Look for more enhancements and updates to come for our system.  
The best has yet to come!
